ADVANCED PRESCRIPTION FACIALS

Using the latest Skin Care Technology your Therapist will prescribe a Facial Module designed to specifically meet your skin's needs, using one or more of the following treatments:

Microdermabrasion

Skin resurfacing using the latest technology "Diamond Dermabrader". Improves blocked pores, acne, fine lines, scars and pigmentation.

Glycolic/ACM/Lactic Acid Peels

A Natural Fruit Acid is applied to the skin to help de-solve bonds that hold dead skin to the surface resulting in pore reduction, improvement in pigmentation.

Sonophoresis/Iontophoresis (Vitamin Infusion)

Using sonic waves or direct current to infuse Vitamins deep into skin – improves skin's collagen and elastin and increases activeness of Vitamins.

Ultra-sound (sound-waves)

Stimulates skin cells to increase circulation, firm and tone skin.

LED Light Therapy

RED LED helps stimulate collagen and anti aging effect.

BLUE LED treats mild acne by healing and reducing inflammation, slows sebum production.
